Project Title / System Title

BARANGAY MANAGEMENT SYSTEM (CAPSTONE PROJECT)

<http://bagongsilangan.infinityfreeapp.com/>

September 2, 2022 - April 17, 2023

- Together with my team, We develop and create this Management System for Barangay. This system also has subsystems, including a Record management system, account record system, blotter system, Document request module, and many more

CORPORATE WEBSITE FOR BENMAN SECURITY SERVICES

<https://www.benmansecurity.com/>

November 11, 2022 - December 22, 2022

- This client of ours already has an existing website, but it is only a Static Website so the contents of the website are outdated and cannot be changed by the company. That's why we made this Dynamic Website, equipped with an Admin Side to easily modify the contents of their company website, PHP Programming Language was used for the Back-end and MySQL for the database.

CORPORATE WEBSITE FOR M-SOLUTIONS SECURITY SOLUTIONS

<http://www.m-solutionsss.com/>

March 21, 2022 - April 6, 2022

- This is my first client as a freelancer, Together with my colleagues we developed this Dynamic website that has an Admin Side so that the client can manage it easily. HTML, CSS, and JavaScript were used for the Front-End, PHP for the Back-end and MySQL for the system database.

E-COMMERCE WEBSITE (IT ELECTIVE PROJECT)

https://acerino09.github.io/e-commerce_project/

June 12, 2021 - June 29, 2021

- This project is a Responsive Website design for my course IT Elective 5 during my College days to practice my skills in Website designing.
